

Get preventive medications at no cost to you.

The Patient Protection and Affordable Care Act (PPACA) has designated certain types of medications as preventive, meaning they can help you stay healthy.

Your health plan covers many of these medications, at no cost to you – without a copay, coinsurance, or deductible. Pretty great, right?

Unless otherwise indicated, medications on the provided list are available to you at a \$0 cost share.

To make sure a drug is covered at a \$0 cost share, please log on to your Highmark member website or call the Member Service number on the back of your member ID card.
